FREE SPEECH

Several readers have advised us that PolyPaks may not be the greatest place for mail ordering. They suggest Solid State Systems, P. O. Box 773, Columbia, Mo. 65201 for 24 hr. shipment or 10% off. Their no. is Toll-Free 800-325-2595.

The following are answers to questions by readers, which for lack of space we must answer this way.

A red box duplicates the coin denomination tones of the new "fortress phones"... If you have problems getting maximum volume from your box (issue 12) try reducing output capacitor to 2 mfd., and raising feedback resistor of op-amp to 10k or greater... Proper volume is when box is just too loud to be comfortably pressed to ear... A five station telephone can handle 5 incoming lines, but does not automatically give you 5 lines if you hook it up to your single number... We've heard you can turn a touch tone phone into a Blue Box, but it appears to be impossible... Thanks case... Blue box detectors are being made, and until we know all they detect, we'll say that use pay phones to be safe.

CREDIT CARDS OF THE MONTH

838-0811-128X, 253-9921-050A,
525-2135-020J, 521-7216-151U

Turkey	90-36
Vatican	39-6
Wales	44
Wallis and Futuna	681
Yemen, Peoples Dem. Rep.	969
Zambia	260

Also, the following country codes have been changed.

Algeria	213, 214, 215
Libya	218, 219
Tunisia	216, 217

READER SUPPLIED INFORMATION

Don't group.
You might be interested to know that in San Francisco you can find out the number of an open line by calling the operator on 222-2222 and telling her you are from frames on an ESS 322 number and what is the number please.

They are requiring all operators who raise from the ranks to another gig to view several interesting films including one where wittle itty bitty animated pencils talk to one another about "My operator didn't care for me, she chewed on me and I won't last too long", but the general gist of the films is that you can and will be fired for illegal possession of ONE Ma Bell Pencil, and that the official communications secrecy act can get you shipped off to Siberia for telling anyone little things about the phone company or its equipment.

Real big brother indoctrination techniques.
Another interesting thing out on this coast was that after they spent an ungodly sum to a mathematician to develop that "new" credit card code the Barb had it printed in about 2 weeks. One phone VP stormed around the SF office swearing and talking about getting even with that "hippie newspaper".

Good luck, and may you have a cheap but good attorney. S. F., San Fran.

CALIFORNIA TEST NUMBERS

A. N. I. (Automatic Number Identification) 33Q or 6104-1
Loop codes- XXX-0044 and XXX-0045
Silent line- XXX-0047, 8, 9
Loop check generators-XXX-0048

Catalina Inward- KP 213 036 121 ST.

Friends at YIPL,
This Black Box detector is probably just bullshit that Bell System is putting out to scare preaks away. If they have a tap on your line they sure as shit can tell though. I've never heard about any way to detect a black box without direct connection to every phone line, and at \$35 per line... and 7 million phones in N. Y., that's 245 million bucks. Even capitalists like Ma Bell don't waste a quarter billion to save a couple million.

If phone preaks want to get in touch with each other, try these Colorado loops. THEY ARE NOT FREE, SO DON'T CALL FROM A HOME PHONE CAUSE THEY'RE LONG DISTANCE.

Area code 303
343-0009 & 343-0068 One of each pair has a 355-8414 & 355-8424 tone, which will stop if 758-0009 & 758-0000 someone then calls the other number, and then you and they can talk. We suggest not giving out numbers because they are monitored, but exchange info if you want. And don't stay on long.

YIPL,
I've heard of the curdler(YIPL, no. 12); apparently they're considering dropping the entire matter after it proved powerful enough to "destroy" all the cats and monkeys in an animal room at a large university. S.

Gentlemen:
There once was a guy from Mass
Who trusted not A. P., U. P. I., or Tass.
He took dollars two
And sent them to you
Because he wanted to subscribe to YIPL.
R. R., Mass.

Dear YIPL,
I assume you already know that some telco's are using KP-2 which is 1300+1700. Fuck Ma Bell. E. H., CA.
KP-2 is "transit keypulse" as opposed to KP-1 which is terminal, meaning point of destination. With KP-2 you can call France via England. This is primarily done on overseas calls where direct access is not provided.

In order to stack, or add, your calls up by a long chain, a certain procedure is used which requires the use of blank codes, which allow one to call a number that is not a customer's in area A and then call again to area B, going through A in the process. If this is of any use(which we doubt) we will publish codes sent us.

Dear YIPL,
Could you tell me where I can get abold of some information on how to use a blue box on pay phones. Every time I beep off an operator cue in, so I've been limited to using my friends' phone lines. And because I don't like the idea of making a habit of using a line very often I've just about run out of available lines.

B. P., Md.

In many areas, operators manually place 800 (Wats) calls, and think you are signalling them when you beep and their switchboard lamp winks. So when that happens try calling long distance information instead. Often the operator(local) stays on a second, so ask for a name, & when you hear local operator leave the line, beep off.

which way is it facing?

THE AT&T PAPERS

RESTRICTED
BELL SYSTEM
SECURITY INFORMATION

subject: Toll Fraud - Y.I.P.L. Publications
date: October 13, 1972
to: Security Managers
from: Director-Corporate Security

Requests that signed statements be secured from fraud perpetrators who admit that their fraudulent activities were based on information appearing in a Y.I.P.L. newsletter.

As you are aware, efforts are continuing to effectuate deterrent actions against publications which print detailed instructions regarding methods to commit toll fraud. It has been alleged that information published in the Youth International Party Line (Y.I.P.L.) newspaper was a source document for some acts of fraud.
It would be helpful to acquire evidence to substantiate this allegation. Therefore, it is requested that signed statements (attaching to the source of information) be obtained from fraud perpetrators who admit acting to defraud the telephone companies based on information appearing in Y.I.P.L. newsletters.

A copy of the statement should be forwarded to Mr. G. V. Schacht, A.T.&T. Security.

G. V. Schacht
Director-Corporate Security

If any of you still have doubts about Ma Bell, J. F. Doherty and his merry band of infected pork, this should clear them up. The above document was recently sneaked out of the AT&T Pentagon especially for YIPL. Examine the second paragraph.

Being the smegma that they are, they cleverly used the word "obtain" for what is really ~~steal~~. What they do is to scare people they catch by saying they'll press lighter charges if they link out on their friends or YIPL. We'd love to tell you they lie, but the fact is that when the Government promises immunity they grant it. So we consulted our lawyers and have discovered something very interesting. The Phone Co. has its own law- Fraud by Wire. You break it, and they don't have to press charges, because it's a federal law. But their scheme backfired this time, because it also means that they cannot make any promises about pressing charges. If they do, and this is what makes this stolen memo important, they are BREAKING THE LAW, OUTRIGHT. And they do it, too, because people don't understand all the facts. They are, exactly:

If you are approached by the phone co., do not tell them a thing, but try to find out what they want, and after they ask you that first question, kick them out. Refuse to say a word. They are not police. They cannot arrest, subpoena, question or even ejectuate. Speak to a lawyer, one who you can relate to. Even if they come with police or campus officials, you do not have to answer any questions or let them in, if they don't have a warrant to search or arrest you, which they usually won't. Too many people have been screwed by trying to outguess or lie to them when they come to talk, so DON'T TALK. TELL THEM YOU WILL NOT SPEAK TO THEM, AND THEY SHOULD GET OUT. This infuriates them more than anything. Make sure your friends read this issue, and understand that when you deal with pigs, you're bound to step in it.

Greetings;

Could you tell me if there is any truth to the rumor that the phone company is installing voice-tracking devices to catch people making illegal credit card calls? R. L., N. Y.

There has been a recent court decision allowing voiceprint evidence in a gambling case, however not to our knowledge for credit calls. Often they tape the call if it sounds suspicious, and play it back to the parties involved while threatening them. So if you don't sound like a businessman or woman, or tell your friend over the phone that it's a phony card, they might hear. Don't use names or phone #'s, and you'll never be hassled. Always dial the call from a pay phone, dial direct with a 0 first, say "Credit card, 253-9921--050A". You may be asked the # of the pay phone you're at. Tell her, and change the last digit or two. She may try that number and come back on, if so hang up and change phones. Always sound middle-aged, and in a hurry and pissed at operators, but willing to give her one chance.

Friends,

Here's a recipe that tastes great and is the cheapest source of protein. Nothing is cheaper than canned mackerel. It costs 23¢ to 29¢ per pound! Mackerel doesn't plug your pipes with fatty acids the way hamburger does.

Add 1/2 can of mackerel to 1/2 cup of Crunchy Granola to 1/2 can mushroom soup. Stir & heat till it just starts bubbling.

Or use mackerel as a sandwich spread. For ingredients use salad dressing, chopped onion, chopped celery, a little vinegar, mustard, salt and of course mackerel. Mix well. Go to your day old bakery and get rye, pumpernickle, wheat at half price or less. But avoid Wonder Bread & Hostess: this is an ITT subsidiary. Day old bread makes great toast. If you want to freshen it, put in your refrigerator over night. It will taste fresh & you won't have to toast it.

Service to the People! M. T., Kentucky

Not to mention what they put in Wonder Bread! ITT 's credit card no. is 893-5579-001D so make sure never to use it. By showing them how benevolent we are, they may stop supplying war materials to kill people, they may stop putting chemicals that affect your body in Morton frozen foods, and wouldn't that be great?

SUPPORT THIS BROTHER

Captain Crunch, as John Draper is alleged to be, goes to trial on November 28. The legal fees for the trial and any appeals are substantial, and John is not exactly loaded. This is an important test case for all of us, because without support, Ma Bell will win the right to wiretap illegally and get away with it. Many of you have sent money and we all, including John, appreciate it but he needs much, much more. Please send what ever you can to the Cap'n Crunch Defense Fund, Box 755, Campbell, Ca. 95008. Maybe you might donate a portion of the money YIPL helps you save on your phone bills.
